

DE HAAN EN BUIS VERZEKERINGEN

Our Hearing Aid Insurance in Headlines:

- The insurance offers worldwide coverage for people who live in the Netherlands and have Dutch health insurance.
- The insurance offers a wide cover against loss, theft and damage caused by external causes.
- You start the insurance for a year. After a year, it can be canceled daily with a notice period of one month.
- We do not use depreciation. We never reduce the insured value of the hearing aid. In case of a covered damage, we will always pay the insured sum minus your own risk.
- On our website www.hoortoestel-dehaanenbuis.nl you can find the policy conditions and apply for the insurance immediately. You can also first calculate the premium based on the value of your hearing aid.
- When you make your insurance application online, we can provide immediate coverage. When you send this by letter, the cover begins when we receive the application form.
- For a request or a change, we ask you to provide the brand, type, serial number and value of the hearing aids. If you do not have this information, you can ask your supplier for the required information.
